Smart Professional Services Procurement

Pitch Presentation
September 2020

gvider@apadua.com

Too many companies spend good money on poor service.

Clients are unable to specify their needs.

Clients struggle to identify suitable providers.

Clients do not monitor the performance of their providers.

Clients involve procurement too late and too little.

Procurement should be in control of sourcing professional services!

**APADUA empowers procurement
to be the preferred partner for
their internal clients.**

SMART PROCUREMENT

Use technology and artificial intelligence to empower your procurement organization and increase the value created by Professional Services projects.

PROFESSIONAL SERVICES

Specialist business support for organizations across the private, public, and social sectors. This includes consulting, audit & accounting, tax & legal, IT & engineering as well as marketing services.

improve quality of service

ensure compliance

access market intelligence

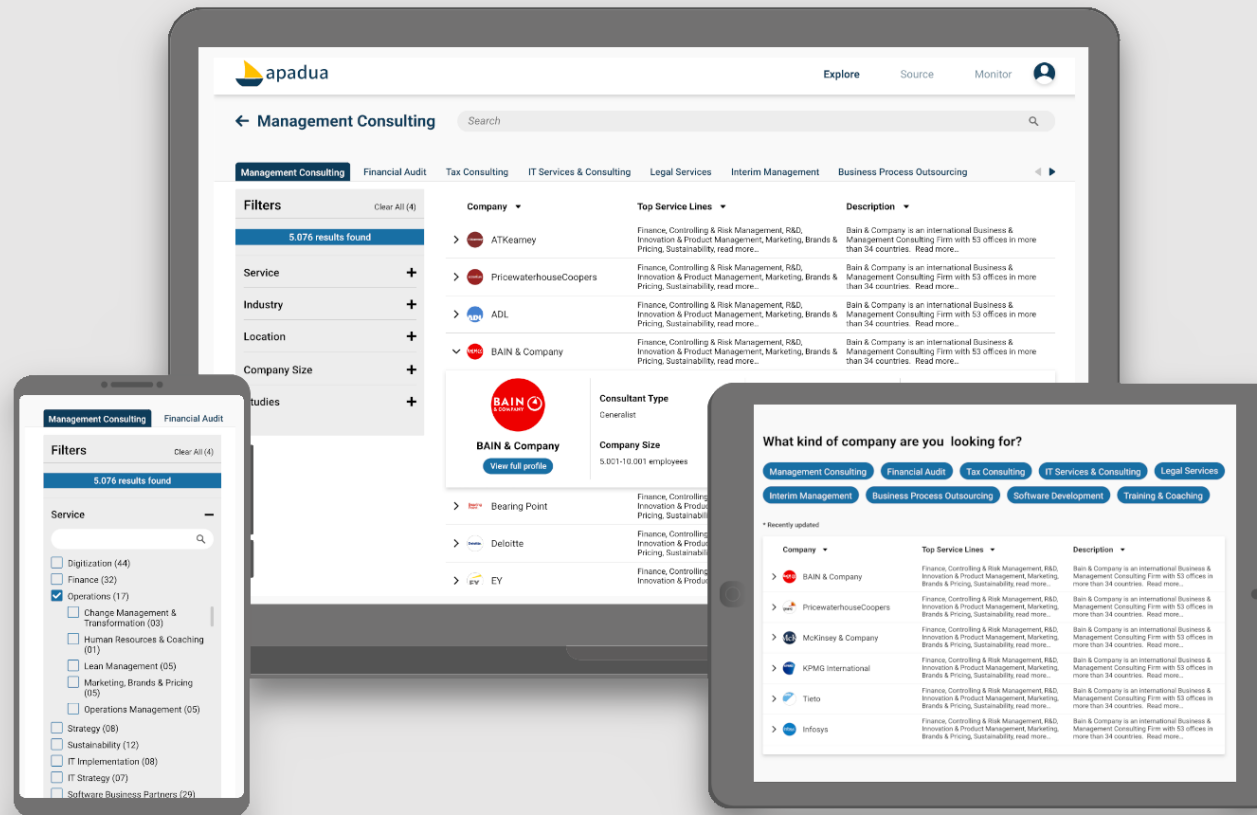

gain efficiency

reduce costs

EXPLORE

Instant Vendor Discovery

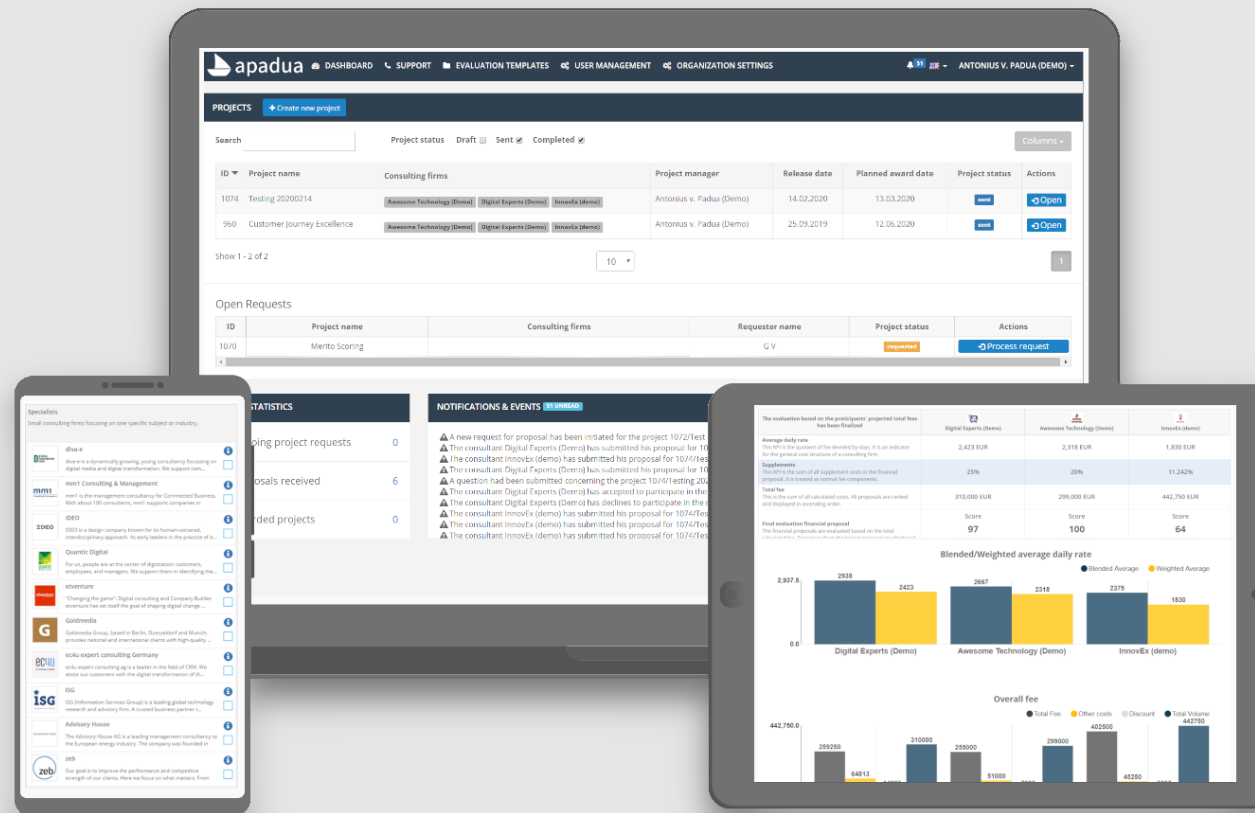

Access the leading online directory Professional Services Firms and find the perfect match among over 2,000 curated vendor profiles.

SOURCE

Seamless Vendor Selection

Use the only smart sourcing suite tailored for professional services procurement and collaborate with your internal clients throughout the RFP process.

MONITOR

Collaborative Quality Assurance

The most efficient way to monitor project & vendor performance, utilizing the feedback of project stakeholders to gain meaningful project insights in real-time.

About us

We empower clients to rethink Professional Services Procurement by facilitating the cooperation between internal customers and procurement in specifying demand, identifying suitable vendors, sourcing compliantly and monitoring vendor performance. APADUA provides a complementary suite of enterprise applications focused on market intelligence, e-sourcing and vendor management.
